

OWEN PALMER

Industrial designer in Toronto with a mechanical engineering background and plenty of shop time. I solve problems early, work in real materials, and understand how something is built before it's finished in CAD. I take products from an idea to production.

STUDIO NEWO.COM

TORONTO, ON

EXPERIENCE

Founder & Designer

STUDIO NEWO • TORONTO • 2024-PRESENT

- Design and build products end to end, including the KART radar lamp and NAF crossflow fan, from concept to working prototype.
- Write embedded firmware in C++ on ESP32, driving LED matrices and mmWave radar sensing.
- Presented the NAF fan at IDS Toronto 2025.

Project Assistant

WOOD BY DESIGN • PETERBOROUGH • 2024-2026

- Lead assembly, finishing, and on-site installation of custom furniture and cabinetry.
- Prepare CAD files for CNC cutting and contribute to design decisions.

Leak Survey Technician & GIS Assistant

QSP GEOGRAPHICS • OTTAWA • 2023

- Operated gas-detection equipment, documented leaks, and mapped survey data in GIS.

EDUCATION

Industrial Design

OCAD UNIVERSITY • TORONTO • 2024-27

Mech. Engineering

UNIVERSITY OF OTTAWA • OTTAWA • 2021-23

First place in the design-day competition two years running.

CAPABILITIES

CAD

Solidworks Onshape

FABRICATION

CNC Laser 3D printing
Welding Lathe Mill

MATERIALS

Wood Metal Plastic Foam
Leather Vinyl

ELECTRONICS & FIRMWARE

ESP32 C++ / Arduino

3D SCANNING & AR

Photogrammetry AR integration

SOFTWARE & WEB

Photoshop Illustrator XD
SketchUp HTML/CSS/JS
Three.js
