INSTAGRAM / STUDIO.NEW0
TORONTO, ON

PROFILE

Industrial designer in Toronto with a mechanical engineering background and two years on the shop floor building and installing custom furniture and cabinetry. Designs, builds and sells products through Studio NEWO, and makes studio renders, animations and production drawings from other designers' and brands' CAD. Works in real material early, and knows how a part gets made before it is finished in CAD.

FREELANCE

Product renders

Client CAD in, studio-lit stills out.

Animation

Turntables and exploded-view clips, 10 to 20 seconds.

Launch bundle

Stills, a clip and a 3D web model for a launch.

Drawing packages

PDF drawings, DXF flat patterns, STEP.

CAD cleanup and DFM

Clean SolidWorks, fixed for manufacture, BOM.

EXPERIENCE

Founder and designer

STUDIO NEWO / TORONTO / 2024 TO PRESENT

- Designs and builds products end to end, from concept to working prototype: lighting, audio, furniture.
- In-house pipeline from SolidWorks to studio renders, turntables, exploded-view clips and 3D web models.
- Production drawings and laser flat patterns for studio products.
- Embedded firmware in C++ on ESP32: LED matrices and mmWave radar sensing.

Project assistant

WOOD BY DESIGN / PETERBOROUGH / 2024 TO 2026

- Led assembly, finishing and on-site installation of custom furniture and cabinetry.
- Prepared CAD files for CNC cutting and contributed to design decisions.

SELECTED WORK

KART

Presence-sensing lamp, mmWave radar.

NAF

Crossflow fan. Shown at IDS Toronto 2025.

OMNI

Omnidirectional loudspeaker pair.

LOOTS

Collapsible lumber stool. Exhibited 2025.

Sonic Touch

Music remote for dementia care. Tested at Baycrest.

Vacancy to Value

Non-fare revenue proposal for the TTC.

EDUCATION

Industrial Design

OCAD UNIVERSITY, 2024 TO 2027

Mechanical Engineering

UNIVERSITY OF OTTAWA, 2021 TO 2023

First place, design-day competition, two years running.

CAPABILITIES

CAD

SolidWorks, Onshape

RENDERING

Blender: stills, turntables, exploded views, 3D web models

DRAWINGS

Production drawings, DXF flat patterns, STEP, BOM

FABRICATION

CNC, laser, 3D printing, welding, lathe, mill

ELECTRONICS

ESP32, C++ / Arduino

SOFTWARE AND WEB

Photoshop, Illustrator, HTML / CSS / JS
